

PRODUCT INFORMATION

BRAKE FLUID DOT 5.1

Description

Brake Fluid DOT 5.1 is a high performance brake fluid, which is designed to meet the requirements of modern motor car brake systems.

Brake fluid DOT 5.1 exceeds DOT 3 and DOT 4 (US Federal Standard 116).

Brake Fluid DOT 5.1 is suitable for motor car brake systems DOT 4 / DOT 5.

The product is completely compatible with comparably brake fluids. In order to achieve full performance it is recommended to use only Brake Fluid DOT 5.1 for re-filling.

Properties

- Wet boiling point > 185°C
- Boiling point > 270°C

Benefits

- More safety by reduced boiling point drop.
- For all hydraulic brake systems.
- Miscible with brake fluids of equal specification.

Specification/Recommendations

- ◆ FMVSS 116
- ◆ SAE J 1704
- ◆ ISO 4925 Class 5-1

Special Hints

Brake Fluid DOT 5.1 to be stored only originally sealed. Straight after use the brake fluid container has to be sealed airproof again. Necessarily follow the service instructions for re-filling.

For re-filling hydraulic brake systems absolute cleanliness is required.

The fluid may be harmful for vehicle paintwork.

Brake fluids have to be separately collected and disposed. They must not be mixed-up with waste oil.

Our information is based on thorough research and maybe consider reliable, although not legally binding. The operating instruction and oil recommendation of vehicle and engine manufacturers must be followed.
