

PRODUCT INFORMATION

PRO CARE BONDED COATING -Dark

Description

Bonded Coating Dark is quick-drying, oil-free and touchproof sliding lacquer with dark MoS₂ solid-state lubricants.

Benefits

- Fast-drying
- High-pressure rating
- Application with absolutely no grease and oil
- Very good reduction in friction and wear values
- Extremely clean application, as it does not bind to dust
- Extremely temperature-resistant from -180°C to +400°C
- Sliding surface with excellent adhesion and high load carrying capacity

Application

- As a release agent and for coating components under load
- Wherever lubrication containing oil and grease is not desired
- As a single and basic lubricant for guides, sliding surfaces, conveyor belts, transport rollers etc.

Instructions

Shake can well before use. The surface of the material must be free of grease, clean and dry before applying the sliding lacquer.

Notice

! Drying time: approx. 10 minutes at 20°C.
