

PRODUCT INFORMATION

PROCARE DRILLING & CUTTING OIL

Description

Drilling & Cutting Oil is a mineral oil-based universal cutting oil for light to medium-duty machining.

Benefits

- Extended service life of the tool due to very good heat dissipation
- Cools even while spraying
- Dissolves resinified residues and deposits
- Good material compatibility
- Good protection against corrosion

Application

- For the machining of normal and high alloy steels
- As a preservative for finished parts and machine parts

Instructions

Evenly spray the drilling and cutting oil onto the cutting tool and the parts to be treated.

VOLUME

400 ml

PACKAGING

12 Pcs.
1 Box
