

PRODUCT INFORMATION

PRO CARE DRILLING & CUTTING PASTE

Description

Drilling & Cutting Paste is a cutting and drilling paste resistant to high pressure for heavy machining and high cutting speeds.

Benefits

- Extremely high pressure-resistant
- Very good adhesion properties, ideal for overhead use
- Prevents the formation of built-up edge

Application

- For difficult machining, e.g. extremely hard steel, machine tool steel, roller bearing steel, etc.

VOLUME

400 ml

1 kg
