

## PRODUCT INFORMATION

### PRO CARE ATF CONDITIONER

#### Description

**ATF Conditioner** is formulated with the highest quality synthetic base oils and special additives to help prevent minor leaks and promote smoother shifting. It is an additive that contains a special detergent package to fortify ATF against oxidation, acid formation and breakdown due to thermal stress.

#### Benefits

- Improves shifting performance
- Reduces noise and shudder
- Compatible with all ATF fluids, conventional and synthetic
- Extends fluid life
- Contains an effective foam inhibitor
- Designed for use in both new and older vehicles
- Extends automatic transmission life
- Improve fluid shear stability
- Conditions seals to minimize or stop small leaks
- Reduce parts wear and extend equipment life
- Prevents overheating, reducing elevated operating temperatures
- Eliminates clutch chatter and torque converter shudder
- Maintains proper ATF viscosity index in the torque Converter
- Does not contain any harmful components such as zinc (ZDDP) ash, etc.

#### Application

For use in new and older transmission. ATF Conditioner can be added to any ATF (For normal applications, add 50 mil per 1 L of ATF for the total capacity of the transmission. Always consult your owners manual for vehicle specific instructions.
