

## PRODUCT INFORMATION

### PRO CARE BRAKE CLEANER

#### Description

**Brake Cleaner** is Hydrocarbon based volatile degreaser and brake cleaner. Does not contain any chlorinated and halogenated hydrocarbons.

#### Benefits

- Optimal oil and grease cleaning
- Low evaporation rate
- Cleans without staining
- Conductivity additive in canisters

#### Application

- To remove greasy or resinous residues during servicing, repair and prior to assembling
- To remove and activate parts before gluing and painting
- Removes oils and residues, synthetic oils and silicone residues
- Ideal for residue-free cleaning

Check plastic and paint compatibility first. Spray cleaner onto the parts. Leave to work for a short period.
