

PRODUCT INFORMATION

PRO CARE DIESEL STABILISER

Description

Diesel Stabiliser is an innovative active ingredient for safeguarding general fuel quality for fuels from natural sources (bio-diesel, vegetable oil etc.). Reliably prevents deposits.

Benefits

- Reduces deposit formation
- Protects the system against corrosion
- Prevents microbiological contamination
- Excellent oxidation protection even at elevated temperatures
- Prevents oxidation-related deposits using antioxidants and dispersants
- Improves the stability of diesel fuels during storage using effective antioxidants
- Improves engine running and acceleration, especially at low ambient temperatures

Application

- For safeguarding biodiesel fuel quality
- Improves winter suitability
- For preventing damage to the injection system due to storage
- For increasing fuel stability during storage with regard to oxidation and biological contamination

Instructions

Empty the contents of the can into the fuel tank.

Completely fill the fuel tank for engines that have been stored for a long period of time.

Ideal dosage: 1 can to 40 litres of fuel.

VOLUME

250 ml

PACKAGING

24 Pcs.
1 Box
