

PRODUCT INFORMATION

PRO CARE OCTANE BOOSTER

Description

Octane Booster raises the octane number of the fuel up to five points depending the quality of the fuel. Particularly recommended for fuel of lower quality. Prevents “engine knocking” and mechanical damage. Works against overheating of the engine.

Benefits

- Increases the octane number — depending on the original fuel quality
- Reduces wear on valves and valve seats, which can extend the life of the engine
- Increases both research and motor octane numbers
- Reduces the quantity of pollutant emissions (carbon monoxide, unburnt hydrocarbons and nitrogen oxides)
- Increases engine performance
- Maintains the cleanliness of the combustion chamber and avoids knocking phenomena
- Protects against engine ringing, knocking and reignition

Application

- Suitable for all petrol powered engines.

If the fuel quality is fluctuating or poor. In case of engine noise, such as engine rattling or knocking. To improve the performance of vehicles in the high-performance sector.

Instructions : Add the can contents to the tank. Fuel quantity up to 60 litres petrol. The fuel quantity should be at least equal to the reserve volume.

VOLUME

250 ml

PACKAGING

24 Pcs.
1 Box
