

PRO CARE DIESEL ADDITIVE

Description

Diesel Additive is a high-performance additive for all diesel engines. Cleans and protects all components that come into contact with fuel. Ensures technically safe and economical operation.

Benefits

- Cleans the diesel system
- Keeps the injection system clean
- Efficacy certified by TÜV Thüringen
- Protects against wear and corrosion
- Proven to reduce CO₂ and HC emissions
- Improves the lubricating effect of low-sulphur fuels
- Less fuel used due to accurate injection and atomisation of diesel fuel

Application

- For all diesel engines in passenger cars and trucks
- Preventive at every inspection
- For all diesel fuels, summer and winter diesel
- Suitable for modern common rail and pump/nozzle injection systems

Instructions

Add the contents of the can to the petrol tank.
Recommended to use with each fill up of petrol.
One can is sufficient for up to 60 liters of petrol.

VOLUME

250 ml

PACKAGING

24 Pcs.
1 Box
