

PRODUCT INFORMATION

PRO CARE FUEL SYSTEM CLEANER

Description

Fuel System Cleaner is a high-performance additive for all petrol engines. Cleans and protects all components that come into contact with fuel. Ensures technically safe and economical operation.

Benefits

- Ensures fuel quality
- Proven to reduce NOx emissions
- Efficacy certified by TÜV Thüringen
- Less fuel is used thanks to precise fuel injection and even combustion
- Ensures the technically safe and economical function of the fuel system
- Removes deposits and oxidation residue from all components that come into contact with fuel
- Extends the life of catalytic converters and the exhaust system after treatment by means of optimum combustion

Application

- For increased fuel consumption
- Preventive at every inspection
- If the fuel is suspected to be unsuitable
- Also recommended for the direct injection system

Instructions

Empty the contents of the can into the fuel tank. Fuel quantity up to 60 litres of petrol. The fuel quantity should be at least equal to the reserve volume.

Notice! Test logo is possible with dual marks approval.

VOLUME

250 ml

PACKAGING

24 Pcs.
1 Box
