

## PRODUCT INFORMATION

### PRO CARE RADIATOR CLEANER

#### Description

**Radiator Cleaner** For quick and easy cleaning of the cooling and heating system. Dissolves and binds oily and greasy residues. Penetrates and eliminates slime and corrosion deposits. Neutralises lime residues.

#### Benefits

- Cleaning of the cooling and heating system
- Dissolves and binds oily and greasy residues
- Neutralises lime residues
- Penetrates and eliminates slime and corrosion deposits
- Increased operational reliability due to cleaner cooling system
- Safeguarding of the cooling system
- Protection of the new coolant from old contamination

#### Application

- For all radiator repairs to rectify reduced cooling performance
- In case of deposits in the cooling circuit
- When changing coolant
- For cleaning purposes following engine repairs (oil in the cooling system)

Allow warm cooling water to drain. Add radiator cleaner to the radiator and top up with fresh water. Set the heating valves to warm. Bring the engine up to operating temperature and leave it to run for approx. 30 minutes. Drain used cleaning fluid and flush with clean water. Add a fresh mix of anti-freeze and water. Sufficient for up to 5 litres of coolant.

Note:

- Avoid storing at temperatures below 0°C
- Replace rubber components damaged by ingress of oil as required
