

## PRODUCT INFORMATION

# PRO CARE KLIMA FRESH SPRAY

## Description

**Klima Fresh Spray (Interior /Air Conditioning and Ventilation System Spray)** is quick and efficient odour absorption for (vehicle) interiors and air conditioning systems.

## Benefits

- Absorbs unpleasant odours in passenger compartments and ventilation ducts which may be caused by bacteria and fungi
- Adds a pleasant, fresh scent

## Application

- For use in all vehicles with air conditioning or ventilation systems

## Instructions

Please keep the can of Procure Klima Fresh in the footwell of the front passenger area, make sure that all the dashboard vents should be opened, turn on the Air Conditioning (A/C) System, and set it to air recirculation at the full power of the fan, at the minimum temperature. Depress the nozzle lever into the lock-down position and close the doors. The can empties itself in about one minute, which indicates the completion of the process however, let the vehicle A/C System run for 3-5 minutes more and then thoroughly air the interior of the vehicle.

## Notice

Do not exceed one can per vehicle interior.
